Artificial Intelligence Subsidy Scheme

The Artificial Intelligence Subsidy Scheme (AISS) aims to subsidise eligible users to make the best use of the computing power by Cyberport's Artificial Intelligence Supercomputing Centre.

Under the AISS, successful applicants will be subsidised up to 70% of the list price.

Application

Eligibility

Local Institutions	R&D Centres	Government Bureaux and Departments	AI Start-ups	Strategic Enterprises

Submit applications by email to **aiss_application@cyberport.hk** with documents including:

- AISS application form
- Project proposal
- Team structure and Curricula Vitae of team members, if applicable
- Track records of computing power usage and the team, if applicable
- Financial proof, if applicable
- Copy of Certificate of Incorporation and Business Registration, or equivalent as a proof of the entity
- Start-up document(s) proof, if applicable
- Shareholding structure of the company, if applicable
- Other supporting/ reference document(s), if applicable

For details, please refer to the "Application Procedures – Required Application Documents" on the AISS Website.

Applications can be submitted throught the year.

Vetting

The AISS Committee will vet applications according to the evaluation criteria:

- Alignment with I&T and AI development needs in Hong Kong
- Reasonableness of project's computing power requirement
- Technical & financial capabilities, track record and other attributes
- Probability of success, expected outcomes and social impact of the project

Agreement and Payment

Applicants will be notified of their application results by email. Cyberport will arrange agreement signing with successful applicants to confirm the subsidy offer.

Successful applicants shall make the prepayment in full or the first quarterly prepayment at a minimum for the approved computing power.
